Order

**Preamble**

Under National Hydrology project, task related with of developing India Water Resources Information system (WRIS) has been initiated by the Central Government (Ministry of Jal Shakti – MoWR & GR) and State Governments shall have to develop State's chapter, in integration with WRIS. Further, the Central Government is also assisting Gujarat State for developing WRIS chapter with the help of consultant engaged by them.

It is envisaged by the central government to cover all the major/medium/minor water resources on the WRIS platform so that full scale development and evolvment of Gujarat state's chapter of WRIS. Sharing such water resources data is also one of the major thrust area of the National data sharing and Accessibility policy (2012). A draft of "Gujarat State Dissemination policy" (for water resources) is also prepared in line with the National data sharing and accessibility policy and is under active considerations.

In the light of developing State's chapter of WRIS under National Hydrology project, the central government has requested to state government to integrate and share data on India WRIS dashboard.

**Order:**

The following tasks shall be taken up by the concerned state level agencies for publishing water resources data on India WRIS on TOP PRIORITY basis.

1. All available historical database for surface and ground water resources shall be shared in appropriate data formats as required by the Central Government/National Project Management Unit (NPMU) – National Hydrology Project, New Delhi. (Actions to be taken by State Water Data Center and Gujarat Water Resources Development Corporation)
2. Web services, URL, Input /output parameters etc shall also be provided for Gujarat Reservoir. (Actions to be taken by Flood Cell Gandhinagar with NIC – Gandhinagar)

This is issued with necessary approvals on date 21 Sep 2019 from Secretary (WR), on even number file

  
Officer on Special Duty (IP)  
NWRWS&K Department  
Gandhinagar

Copy Respectfully Submitted for information please
