

Improvement in utilisation of earth-moving machinery.

Issue of NonObjection Certificate to let out earthwork on contract basis.

Government of Gujarat,  
Narmada & Water Resources Department,  
Circular No. GCM - 1295 / (37) / H(i),  
Sachivalaya, Gandhinagar,

Dated the

Read : Circular No. IFE-1283/15/H(i) dt. 19.3.1984.

C I R C U L A R.

With a view to achieve better utilisation of earthmoving equipments available with the department, the Govt. has decided that earthwork costing more than Rs.10.00 lacs should be let out on contracts only after getting " NO OBJECTION CERTIFICATE " from the Chief Engineer(Mech.) & Jt. Secretary as per Govt. circular No. IFE-1283/(15)/H(i) dtd. 19.3.1984, copy of which is enclosed herewith for ready reference.

As instructed under para.2 of the above referred circular, concern Supdtg. Engineer(Civil) is required discuss with Chief Engr.(Mech.) & Jt. Secy., with complete details such as L.S., Plans, details of borrow area, planning of work and all other relevant particulars in order to enable Chief Engr.(M) & Jt. Secy., to decide undertaking the work departmentally or otherwise.

It is noticed by the Govt. that concerned Supdtg. Engineer/ Ex. Engrs.(Civil) are approaching Supdtg. Engineer, Irri. Mech. Circle No.2, Ahmedabad directly for obtaining 'No Objection Certificate' instead of referring the matter to Chief Engr.(M) & Jt. Secy. and Supdtg. Engr. Irri. Mech. Circle-2, A'bad is also recommending to issue 'No Objection Certificate' without furnishing sufficient details of work and proper justification. Such practice is not desirable because it may not be possible for Chief Engr.(Mech.) & Jt. Secy., to decide the issue due to insufficient details/information furnished.

In view of above, all the field officers are hereby directed to stop the above practice forthwith and all the proposals for earthwork costing more than Rs.10 lacs should invariably be referred to Chief Engr.(M) & Jt. Secy. by concerned Supdtg. Engr.(Civil) with complete details of work.

( V.V.PANDYA )

Officer on Spl. Duty (MICC),
